Teaching Impacts for SEND Learners

A DAY

Pearson

1

SCAFFOLDING

Providing a supportive tool like a writing frame or example can help SEND learners become more independent. Gradually remove as they become more confident.
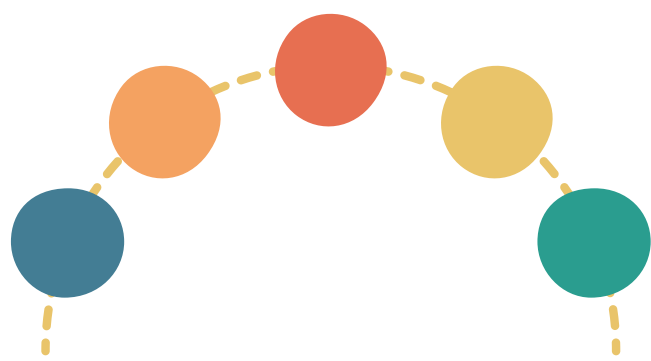

2

USE TECHNOLOGY

Using technology can help them to overcome barriers. It can help them practice and record their learning especially if they are differently abled.

3

MASTERY GROUPING

Group students together according to level of mastery to get extra support or challenge before re joining the main group.

4

EXPLICIT INSTRUCTIONS

Teacher focuses on clear instructions and uses modelling. There should be a focus on clear explanation that all students can understand.

5

Manage Cognitive Load

Provide students with plenty of opportunities to monitor and evaluate learning to support transfer into long term memory.
