AN OVERVIEW FOR PARENTS

# Welcome

We're delighted to introduce you to Pearson Edexcel iPrimary and iLowerSecondary – the most up to date international curriculum programmes in English, Mathematics, Science and Computing for 5 to 14 year olds.

**NEW!**

Our Early Years Foundation Stage programme is available for first teaching in September 2020!

## The most up to date international curriculum available

iPrimary and iLowerSecondary are based on the latest English National Curriculum (2014), with an international approach, and have been written with learners of English as an additional language (EAL) in mind.

## Supporting your child's progress

It's important that teachers can easily identify where your child can improve, so they can make the best progress possible. Schools who use Pearson have access to advanced tools, services and data, such as ResultsPlus, which provides the most detailed analysis available of individual exam performance.

**ResultsPlus**

## Mapped to world-renowned resources

iPrimary and iLowerSecondary have been mapped to our wide range of Pearson resources that are loved by students and teachers across the globe. These include Bug Club, Abacus and KS3 Maths Progress - further enhancing the iPrimary and iLowerSecondary learning experience.

## International benchmarking

Knowing your child's starting point, understanding their learning and reflecting on their development helps to ensure the best opportunities in their educational journey. As a result, ongoing assessment underpins these new programmes.

This includes regular progress tests, assessed by the school, as well as external assessment. This provides a certificated qualification that is internationally benchmarked against students around the world.

## Laying the foundation for future success

The iPrimary and iLowerSecondary curriculum provides your child with the skills and knowledge they need to access the wider curriculum and gives an excellent foundation for later learning.

They form part of iProgress, our complete series for international schools. The iProgress family also includes International GCSE (IG) and International Advanced Level (IAL), and delivers a consistent learning journey for your child, wherever they are in the world.

			
<b>iPrimary</b>	<b>iLowerSecondary</b>	<b>International GCSE (9-1)</b>	<b>International Advanced Level (IAL)</b>
Ages 5-11	Ages 11-14	Ages 14-16	Ages 16-19
English, maths, science and computing	English, maths, science and computing	Available in 37 subjects	Available in 21 subjects

Based on the UK curriculum but designed with a global outlook, iProgress opens the doors of the best universities in all parts of the world and equips learners to thrive in an ever-changing global economy.

# Pearson Edexcel

As the UK's largest awarding organisation, Pearson Edexcel is best placed to provide qualifications that are most closely aligned to the British educational system. With over 3.4 million students studying our qualifications worldwide, we offer qualifications to 6,500 schools, colleges and employers globally.
